

Hisham Mohamed

Software Developer | JavaScript Developer | React.js | Node.js

[Email](#) | Egypt, Beni Suef | [LinkedIn](#) | [GitHub](#)

Profile

Motivated software developer with a passion for building scalable and efficient front-end and back-end Applications. Experienced in Node.js and JavaScript, with a strong foundation in data structures, algorithms, and software design principles. Dedicated to continuous learning and staying up-to-date with the latest technologies.

Education

Beni Suef Technological University

Egypt

Bachelor of Information Technology, Aug. 2021 – July 2025, Cumulative Grade: Very Good

Military Service Status: exempted

Experience

Frontend Developer

Aug. 2023 – Present

Training at a Web designer Company | October 2024 – April 2025

Remote

- Developed Dynamic and responsive user interfaces using JavaScript and React
- Collaborated with designers and backend developers to implement fully functional web pages
- Improved code performance and reusability by utilizing React components and Redux.
- Participated in Code reviews with GitHub environment.

Full-Stack Web Development Trainee

Digital Egypt Builders Initiative – React & Node.js | October 2024 – expected to graduate (July 2025)

- Developed Dynamic and responsive user interfaces using JavaScript and React
- Improved code performance and reusability by utilizing React components and Redux.
- Attended live Sessions with Industry experts and completed multiple hands-on tasks and coding assignments

Skills :

- **Languages:** JavaScript (TypeScript), HTML, CSS
- **Backend Languages:** Node.js, Express.js
- **Frontend:** React.js, Redux, React Router
- **Databases:** NoSQL (MongoDB), SQL (SQL)
- **Concepts and principles:** OOP, SOLID principles, Design Patterns.
- **Libraries:** Material UI, Bootstrap
- **Tools:** Figma, GitHub, VS code

Projects

E-Commerce | React, JavaScript, Material UI, React Router, Redux Toolkit

- Designed the UI based on Figma, ensuring responsive and user-friendly layouts.
- Developed the app as a single page Application (SPA) Using React-Router for Navigation.
- Implemented components using Material UI, focusing on clean design and accessibility.
- Deployed the website on GitHub.

GitHub Link ([GitHub](#))

Weather | React, Open Weather API

- Integrated with a public weather API to fetch and render real-time weather updates.
- Focused on responsiveness and user experience across multiple screen sizes.
- Designed the UI based on Figma, ensuring responsive and user-friendly layouts.
- Deployed the website on GitHub.
- GitHub Link ([GitHub](#))

Portfolio | React - Bootstrap

- Designed and built a personal portfolio to showcase projects, skills, and contact information.
- Followed modern UI/UX practices, with a clean layout based on a custom Figma design.
- Implemented navigation using React Router and styled the interface with Material UI.

Soft Skills

Training Courses :

- **Employability Skills From Aspire.**
- **Project Management From American Chamber.**
